Job Description

Positions: 1

Position: Production Assembler

Overview:

Jomar Group, a manufacturer and distributor of innovative plumbing, industrial and HVAC components, is seeking a Production Assembler to support all of its divisions. The successful candidate would be responsible for supporting warehouse operations through the building of actuator packages.

Responsibilities:

- Mount and build actuator packages as instructed for particular jobs in a quality and timely fashion
- Make clear judgments regarding the most efficient mounting methods based on required function, cost, and maintainability
- Check parts for cleanliness, fit, finish, and defects in material or workmanship
- Operate forklift, scanners, and other warehouse equipment in a professional and safe manner
- Responsible for upkeep of equipment and report equipment problems to management
- Assist in keeping warehouse clean and organized on a daily basis
- Observe and abide by all company policies and safety regulations
- Perform other duties as assigned
- Respect and support supervisors and managers

Job Requirements:

- High school diploma or equivalent
- Previous warehouse experience preferred
- Forklift Certification preferred
- Prior assembly and/or manufacturing experience desirable
- Sufficient knowledge of electric and pneumatic-actuators preferred
- Mechanical ability and basic knowledge of electrical wiring necessary
- Operate power tools and other electronic equipment as required
- Able to understand and follow oral and/or written work instructions
- Good communication skills
- Able to work with fellow co-workers
- Computer literate
- Able to sit or stand and walk throughout the scheduled work shift
- Able to lift and/or move up to 75 lbs on a continuous basis throughout the work day
